

February is Heart Health Month!

Show your support with a donation towards a vital

Cardiac Monitor

needed at your local hospital!

The Cardiac Monitor with Telemetry System needed at the Carleton Place and District Memorial Hospital is a machine that provides continuous monitoring of heart activity. The transition of this data from the monitor to a distant monitoring station is known as telemetry. This system allows a patient to be mobile and active which is a key requirement for recovery. The approximate cost? Over \$300,000 which is NOT funded by the Ministry of Health and Long Term Care. ***It is up to the community to raise funds for this vital piece of equipment!***

YOU can make a difference this month by choosing to fund all or a portion of a piece of much-needed equipment – *equipment that can change lives!* **Gift values start at only \$35** & include a beautiful greeting card with every order letting loved ones know how the gifts given in their name are making a difference in your community!

It's easy to donate online TODAY by visiting giftsofhealth.cpdmhfoundation.ca or call 613-257-2200 x856!
