

Healthy Futures. Together!

COMPREHENSIVE CAPITAL CAMPAIGN New Emergency Department and Patient Care Equipment

Architectural rendering as of stage 3.2

The needs of your community continue to grow which is why raising funds for a new Emergency Department and clinical equipment for the Carleton Place & District Memorial Hospital (CPDMH) is so critical.

Healthy Futures are here!

The next phase of development - one that will build upon a strong history and proud legacy.

In 1955, the hospital was built as a memorial to the lives lost, and the veterans who served in World War I and II. For more than 60 years, this legacy has been honored, by offering compassionate care and exceptional services, close to home.

CPDMH serves a large region that includes Carleton Place, Beckwith, Mississippi Mills and all of West Ottawa. Every day, the team of caring staff, volunteers and doctors touch the lives of patients and their families with their compassion, skill and expertise.

Your hospital is a 22-bed acute care facility providing emergency care 24 hours a day, 7 days a week, as well as ambulatory care, outpatient clinics, physiotherapy and diagnostic imaging services.

The needs of your community are growing, and to keep up, your hospital must too. **Your help is needed now more than ever.** Will you join in helping to create healthy futures for all?

Healthy Futures. Together! Comprehensive Capital Campaign

A completely new Emergency Department and five-year plan to improve Patient Care and Clinical Equipment.

Patient Care Equipment

Currently, the hospital requires more than 100 pieces of patient care equipment totaling approximately \$2 Million. Individual pieces of life-saving equipment can range from \$2,500 to \$200,000 dollars EACH. This equipment will be used throughout the hospital including in the new Emergency Department.

ENHANCING TREATMENT HOSPITAL-WIDE

- Emergency Department
- Diagnostic Imaging
- Ambulatory Care
- Medical Surgical Unit
- Operating Room
- Physiotherapy

Examples of equipment needed and approximate cost per item:

Stress Test Treadmill
\$35,000

Doppler
\$2,600

Glidescope
\$18,000

Defibrillator
\$40,000

Vital Signs Machine
\$4,000

Ultrasound Machine
\$200,000

Infant Scale
\$2,500

IV Pumps
\$6,500

Endoscopy Tower
\$170,000

Stretchers
\$7,000

Anesthetic Machine
\$6,500

For more information on specific equipment needs, its use, impact on patient care and services, please contact the Foundation office (contact information on reverse) and one of our friendly staff members will be happy to assist you.

The support of community partners, donors, volunteers and leaders will be instrumental in helping shape the future and bring these new improvements to your hospital. The Foundation sincerely values all of its donors and has created a number of initiatives to recognize the impact of your contributions (please see the back page).

New Emergency Department

This is not a renovation. This is an entirely new, state of the art facility built on the existing property and attached to the hospital. A brand new Emergency Department building will sit on the current helicopter pad area, and will be triple the size of the current Emergency Department.

Architectural rendering as of stage 3.2

How will the new Emergency Department improve each patient's experience?

- The new Emergency Department will be linked to the hospital and will address current space challenges. It includes, 11 treatment spaces, which is an increase of five (83%) over the current ED.
- The new ED offers flexible space which is better able to adapt to peak volume periods.
- Includes a new ambulance and barrier-free, walk-in entrances.
- Features enhanced infection control standards.
- Includes a private family room and dedicated space for patients dealing with mental health concerns.
- There will be a dedicated space for women with obstetrical/gynecological health concerns.
- Includes a larger waiting room and additional washrooms.

Where is the Hospital with the planning of the new Emergency Department?

CPDMH is now in the final stages of design, with the next stage being the tendering process.

Healthy Futures. Together!

Comprehensive Capital Campaign

Campaign donors who contribute \$1,000 or more over a three to five-year period will be recognized independently under these categories on a special recognition wall in the new Emergency Department AND in their cumulative giving on the Foundation's main Donor Wall in the hospital.
